SONICLEAR™

BEARING EDGE

The **SONIClear™ Bearing Edge** is standard on all Armory shells and allows the drumhead to sit flatter and make better contact with the shell. The result is a stronger and deeper fundamental pitch, effortless and consistent tuning, and a significantly expanded tuning range. For the serious player, the increased head to edge contact increases shell vibration, allowing the sonic nuances of the Hybrid shell to stand out.

SONICLEAR™ EDGE AUDIO TEST SESSIONS

SOUND

The increased drumhead to shell contact achieved by the SONIClear™ Edge enhances shell vibration, resulting in the "biggest" sound possible from the drum.

Oscilloscope Example: The green waveform is a recording of a drum with the SONIClear™ edge. The dark grey waveform is a drum with a typical edge. Tuned to the same pitch and recorded identically, it's clear that the drum with the SONIClear™ Edge produces a much larger waveform from the initial strike through the full sustain of the note.

SUSTAIN

Because the drumhead sits flat on the SONIClear™ Edge, the tension applied during tuning is more balanced and stress-free. This allows the drumhead to vibrate freely and fully.

Waveform Comparison Example: The green waveform is a recording of a drum with the SONIClear™ edge. The dark grey waveform is a drum with a typical edge. The size of the SONIClear™ waveform indicates a lower and stronger fundamental pitch while the length indicates a longer sustain compared to a typical edge.

PREMIUM FEATURES

Armory Series drums include a number of premium features borrowed from the Mapex Saturn V line that will provide pro-level performance to players looking for an a gig-worthy yet affordable kit.

TOMAHAWK ARST4551CEB

- Size: 14" x 5.5"
- 1mm High Polished Steel
- Rounded 45 Degree Bearing Edge
- Bright, Focused, and Loud

The **TOMAHAWK** comes standard with all Armory kits. Made with a 1mm steel shell, the TOMAHAWK has penetrating accuracy and long range projection. The focused power of its rim shot is devastating.

Straight from the Saturn V Series, the **SONIClear™ Suspension System** on the rack toms increases overall resonance by preserving vibration in the drumheads and shell and preventing energy transfer to the hardware.

The **SONIClear™ Floor Tom Feet** provide stable support while increasing overall punch and body, preserving vibration in the drumheads and shell and preventing energy transfer to the floor.

The **Insulated Bass Drum Claws** include rubber gaskets that protect the hoop from damage and prevent rattling or buzzing during periods of extended play.

The beautiful **Olive Wood Veneers** with sophisticated lacquered finishes makes the kits stand out on every stage.

The **6ply 7.2mm Birch/Maple/Birch Hybrid Shells** deliver the ultimate in tone, resonance, and punch. They allow the drums to speak quickly and project clearly in the manner of old-world drum craftsmanship.

Virgin Bass Drums are standard with all configurations in this series, giving the kick sound increased body and low-end. **SONIClear™ Tom Holders** are included for all rack toms, lending ultimate set-up flexibility to the player.

CONFIGURATIONS

What's Your Setup?

The Armory Series offers a variety of configurations designed to fit diverse musical applications. Whether the preference is fast and focused or big and booming, every drummer can find a setup to suit their style.

504S Fusion Shell Pack

The Armory Series "Fusion" Shell Pack is a mix of smaller sizes and are equally suited for the performing drummer needing a highly portable, great sounding kit, or the Jazz drummer needing some versatility.

*Component Drums Available.

529S Rock Shell Pack

The Armory Series "Rock" Shell Pack features sizes that can span a wide range of playing styles, offering a blend of power and versatility well-suited for the drummer needing an all around, great sounding kit.

*Component Drums Available.

628SFU Studioease Fast Shell Pack

The Armory Series "Studioease" Shell Pack includes short depth rack and floor toms that can span a wide range of playing styles. The shorter depths quicken the stick response and are easier to tune higher without sacrificing body or power. They're well-suited for the drummer needing a great kit for all music genres.

*Component Drums Available.

628SFE Studioease Fast Shell Pack

The Armory Series "Studioease" Shell Pack includes short depth rack, floor toms, and an extra deep bass drum that can span a wide range of playing styles. The shorter depths quicken the stick response and are easier to tune higher without sacrificing body or power. They're well-suited for the drummer needing a great kit for all music genres.

*Component Drums Available.

628S Studioease Shell Pack

The Armory Series "Studioease" Shell Pack features sizes that can span a wide range of playing styles. This shell pack offers a blend of power and tone well-suited for the drummer needing a full spectrum of sound for all musical challenges.

*Component Drums Available.

HARDWARE

ARMORY HARDWARE

Built To Hold Up The Fort

Armory is a complete line of Gig-Quality hardware featuring heavy-duty tubes, double-braced legs, memory locks, and the adjustability needed by the serious player. To suit each drummer's unique style and kit finish, Armory Hardware comes in chrome and black-plated (See next page).

MEET THE FAMILY

HI-HAT H800

The **Tru-Direct-Pull Drive System** and **10-Position Tension Adjustment** ensure a resistance-free feel at every tension setting.

Double-Braced Swivel Tripod Legs allow close positioning of a double pedal.

Detachable Solid Steel Base increases stability.

The **Falcon Series Quick Release Cymbal Lock** secures top cymbal during play and speeds up setup and breakdown.

SNARE STAND S800

An **Offset Multi-Step Adjuster** and **Universal Ball-in-Socket Snare Basket Tilter** enable limitless snare drum positions.

The **Die-Cast Snare Basket Adjuster** and a **Clamp-Style Memory Lock** ensure the drum remains securely in position.

Double-Braced Legs and **Die-Cast Memory Locks** provide stability during aggressive play.

BOOM STAND B800

A **Knurled Hideaway Boom Arm** provides compact stand storage.

Concave Double-Braced Leg Shape allows for better stand positioning and compact storage.

Multi-Step Boom and **Super-Glide Stepless Cymbal Tilter** allow for quick and unlimited cymbal positioning.

The **Falcon Series Quick Release Cymbal Lock** secures top cymbal during play and speeds up setup and breakdown.

PEDAL P810

A **Double Chain Drive** ensures long-lasting durability and a smooth feel.

A **Self-Adjusting Hoop Clamp** with **Side-Mounted Adjuster** accommodates all bass drum angles while keeping the pedal flat.

The **Falcon Series Beater** comes with both 10g and 20g weights to customize feel.

The **Extended Length Footboard** increases torque, speed, and gives the player room to find their ideal foot placement.

Chrome Finish

Chrome is the tried and true standard, a classic hardware finish that pairs well with any kit and can suit any player's personal style, whether modern or vintage.
